

CASE STUDY

Project Name: Indiabulls Commercial Project, Parel, Mumbai,

Consultant/Architect: Sterling Consultants, Mumbai

City or Region Mumbai, Maharashtra

Country: India

Supplier: Fosroc Mumbai

Constructive Solution: Due to design changes in the structure it was required to increase the size of the sections of columns in the bottom 3 floors. Renderoc RG was recommended for the same to be poured into the steel lining around the columns. Also, the project has a huge requirement of concreting and we have supplied admixtures for their high grade concrete requirement of upto M60

PRODUCT Renderoc RG – 400MT
Conplast SP430SRV - 500MT (more expected till project completion)
Structuro 100M – 150MT (more expected till project completion)
