**DESCRIPTION:-**

The project NTPC-Barh having 660 x 5 MW Capacity coal based Plant. Total project cost is around 15000 crores. The construction work has awarded to NEC, Power Mech, Gammon India, Paharpur cooling tower, Durha Construction. We continuously supply our Grouting material, Admixture for Turbine Installation, Cooling Tower, Pocket Grouting etc. The performance and result of our product is very acceptable for NTPC as well as Russian consultant Alexandra M B. Even we did the Sand and sound testing for grouting at bare plate where turbine will install. This is very big project so our consistent service and product performance will give the continuous business from NTPC.
